News

Date: 30/11-2020 | 24shore B.V.

Earlier this year we have established a new operating entity to the group, being 24shore B.V. With 24shore we hope to get into the offshore industry which is slightly different than what XELLZ does as project logistics management company.

At the same time we have established 24shore SBS (Supply Base Services) Limited in Ireland where 24shore is working on a large opportunity in the port of Rosslare as well as 2 more ports on the West-coast of Ireland. All these opportunities are related to the offshore wind renewable energy industry. XELLZ hopes to widen its footprint to the total list of services.

So far, we have received very positive reactions from the industry and are in discussions with potential customers. 24shore shall be involved in a total investment of €60 to 80 million in the next few years.

Date: 15 March 2020 | Annual General Meeting

The AGM will be held on May 28th, 2020 at our corporate office in De Kwakel, The Netherlands, and online via video conference line. Details will follow soon.

All invitations will be sent out soon.

If you receive the invite please send your RSVP as soon as possible with the remark whether you'll be present in person or online. Online details will be sent a few days ahead of the meeting.

Date: 14 December 2018

XELLZ Nigeria has been fully agreed with our partner in Nigeria and the entity is being set-up over the next month. Nigeria is an important strategic location for XELLZ as the capital projects in Africa and specially in Nigeria are ramping up. On the other hand, Oil & Gas companies are demanding a more project driven approach to their

project logistics which XELLZ will compliment.

Date: 10 September 2018

Mr. Wieland Risse has taking up his new position as **Executive Vice President Business Development** in line with our company growth and development. In his new position Mr. Risse shall now have a global business development role and take responsibility of over the Global Business Development Department.

Date: 31 May 2018
